The BFSA is a nonprofit organization that has been proudly serving this and surrounding communities for the last 45 years at the Levy Community Rink. Skaters of all ages and interests have begun their skating journey in our *Learn to Skate* program. Our curriculum is designed to teach children and adults the basic maneuvers of ice skating. The foundation learned at the BFSA is crucial to any skaters advancement on the ice, weather recreation, competitive, hockey, ice dancing, ice theater, or synchro, just to name a few.

The BFSA's mission is to provide a fun and positive experience that will instill a lifelong love of skating! Our objective is to teach skaters the fundamentals of ice skating while building confidence through each lesson! We also promote health and fitness benefits. The BFSA provides a progressive curriculum that ensures success from the first steps on the ice to the mastery of advanced skills. We equip each participant with the foundation necessary to reach their goal, whether it be recreational or competitive in nature!

The BFSA places skaters according to skill level and age in small groups lead by certified skating instructors. These instructors help skaters set goals and inspire hard work and determination to achieve them. The BFSA prides themselves on building self-esteem and confidence within each skater.
