Middle School Health Office - Vaccinate Before You Graduate

Attached is a form for the “Vaccinate Before You Graduate” program. This program provides convenience for students to catch up on required vaccines and is arranged through the R.I. Department of Health and The Wellness Company. We are offering this convenience here again at the Burrillville Middle School!

The Wellness Company will be here to deliver vaccination services in school on Friday Dec 8th . Our focus is to provide students with the opportunity to receive the seventh grade required vaccines and allow the 8th grade students to complete the HPV series that may have been started in the pediatrician’s office.

If you are interested in this opportunity, please complete the attached form so your child can receive any missing vaccines during school hours.

Note: This is at no cost to you. Please complete health insurance information if your child has coverage, if not, please leave blank.

Please return the completed form as soon as possible.

Thank you,

Jennifer Poisson, School Nurse-Teacher
